Status	draft for team review
Source	Team 1 authored fictional Marvel CPG document (fictional company documents are permitted by the capstone brief and the official client clarifications); product facts from dim_products

Marvel CPG is a fictional company created for the University at Buffalo CDA 650 capstone. This document was written by Team 1 for the project's RAG knowledge base. Figures marked data *come from the project dataset; everything else is fictional business content.*

1 About this catalogue

Marvel sells 23 household cleaning SKUs in three categories: Surface Cleaners (8 SKUs), Dishwashing (7) and Laundry (8). They are sold under six brands: Marvel Clean, Marvel Pro, Marvel Bright, Marvel Fresh, Marvel Wash and Marvel Soft. 15 of the 23 SKUs are on the Must-Stock List (MSL), which means every account is expected to keep them on the shelf (see MCPG-06).

Use this catalogue to answer product questions from store owners and buyers: what a product is for, how to use it, what to be careful about, and how it performs commercially. Each product sheet has a fixed layout so the same question always finds the same answer:

- **What it is** and **How to use**: product information. This is fictional content written for the project.
- **Cautions**: safety and label points. Always defer to the printed product label (see PUB-03 for general safe-use guidance).
- **Commercial facts**: prices from the product master and performance figures from the project dataset (marked *data*). Section 5 explains how each figure is calculated.

Category value shares in the data period *(data)*: Laundry 39.6%, Surface Cleaners 32.2%, Dishwashing 28.2% of consumer sales value. MSL SKUs make up 78% of value, and the three biggest SKUs by value are Laundry Pods 42ct, Dishwasher Pods 45ct and Laundry Detergent HE 100oz.

2 Surface Cleaners

Everyday all-purpose cleaners (Power Clean), the heavy-duty degreaser line (Marvel Pro), glass spray, bathroom foam and wipes. Demand peaks in March and April (spring cleaning) and is lowest in July and August (MCPG-03).

2.1 SKU-1001 · Marvel Power Clean Lemon 1L

Brand: Marvel Clean (everyday surface care) · **Category:** Surface Cleaners · **Pack:** 1L · **MSL:** Yes, must-stock (MSL)

What it is. All-purpose liquid cleaner for everyday cleaning of sealed hard surfaces: kitchen counters, sealed tile, sinks, appliance exteriors and sealed floors. Fresh lemon fragrance.

How to use. Apply to a damp cloth or sponge, wipe, then rinse food-contact surfaces with clean water. For floors, dilute according to the label.

Cautions. Not for unsealed wood, marble or natural stone. Test on a hidden area first. Do not mix with other cleaning products.

4.7 SKU-1022 · Marvel Stain Remover Spray 22oz

Brand: Marvel Wash (laundry cleaning) · **Category:** Laundry · **Pack:** 22oz · **MSL:** Yes, must-stock (MSL)

What it is. Pre-treatment spray for laundry stains such as food, grass and collar marks. Used before the normal wash.

How to use. Spray onto the stain, leave as directed on the label, then wash as usual.

Cautions. Test on a hidden area of coloured fabrics first. Not for dry-clean-only items.

4.8 SKU-1023 · Marvel Bleach Clean White 96oz

Brand: Marvel Pro (heavy-duty performance line) · **Category:** Laundry · **Pack:** 96oz · **MSL:** Yes, must-stock (MSL)

What it is. Chlorine bleach (96 oz) for whitening white laundry and for general disinfecting use as directed on the label. The Marvel Pro line.

How to use. Dilute according to the label. For laundry, add to the bleach dispenser or to the wash water, never directly onto fabric.

Cautions. Never mix with ammonia, vinegar or other acids, or any other cleaner: dangerous gases can form. Use in a ventilated area, wear gloves, and keep away from children.

5.2 How the commercial facts are defined

- **Trade list price** is the price Marvel charges the account (retailer, chain or distributor) before any trade discount. It is the basis for all discount and margin calculations (MCPG-05).
- **Reference consumer shelf price** is the planning reference for what shoppers pay. It is 1.30 to 1.40 times the list price for every SKU. Retailers set their own shelf prices, so treat it as a reference, not a promise.
- **Marvel gross margin at list price** = (list price − unit cost) ÷ list price. Every SKU sits between 51% and 54% before discounts.

- **Consumer sales value** = units sold × the price the shopper actually paid, over reported store-days from 1 January 2025 to 31 May 2026.
- **Average units per in-stock store-day** counts only days when the store reported and the SKU did not end the day out of stock.
- **Out-of-stock rate** = reported store-SKU-days that ended with zero inventory ÷ all reported store-SKU-days. Days a store did not report are Unknown and are not counted (MCPG-08).
- **Accounts that carry it** = accounts with at least one reported sales row for the SKU. Non-MSL SKUs are carried by 124 to 141 of the 221 accounts.

Open points and review notes

- Product descriptions, usage and cautions are fictional content written for the capstone. They must stay consistent with the product names and must not add regulated claims (for example germ-kill percentages).
- Pack sizes are read from the product names (1 L = 33.8 fl oz, 750 ml = 25.4 fl oz, 500 ml = 16.9 fl oz).
